🔑 If you have a printer, but you don't have color, you can paint the tests and awards using colored pencils, markers, etc.

## PREPARATION

Moms, dads, be very attentive to the instructions since you must leave everything very well prepared and remember, **don't let your children see you!**

This escape room consists of **finding** our protagonists, who are **playing hide and seek**. To find them, the kids will have to look for the **clues** and take the **tests**. Every time they overcome one of them, you will give them a part of the **map**. When they collect the **5 parts of the map**, they will discover **where the puppies are hidden**.

### PREPARATION:

-  **Print the material and tests.**
-  **Cut out the parts of the map and the paw prints.**
-  **Place the paw prints** in 5 visible places around the house and **hide the test** nearby. Example: if the fingerprint is on the closet's door... the test can be hidden inside that closet, in a drawer...
-  **Hide the Marshall and Rubble coloring sheets** in the washing machine (along with the gift, if any).
-  **Explain** to the kids what the escape consists of, who its **protagonists** are and **give them the map** they have to complete.

**Let the search begin!**
