🦷 If you have a printer, but you don't have color, you can paint the tests and awards using colored pencils, markers, etc.

## PREPARATION

Moms, dads, be very attentive to the instructions since you must leave everything very well prepared and remember, **don't let your children see you!**

In this escape room to do at home, at the end, we will manage to create a **PAW Patrol** Ludo board. To achieve this, the kids will have to **follow the map** and take the **tests**. Every time they overcome one of them, we will give them a part of the game. When they gather the **5 parts of the board**, they will have to guess what game it is, to get the final sheet and be able to assemble this Ludo board.

### STEPS TO FOLLOW:

-  **Print the material and tests.**
-  Roll up the tests (scrolls) and hide them according to the location indicated on the map.
-  Cut out the prizes (the parts of the board).
-  Once each test has been passed, hand over the corresponding board part.
-  **Explain** to the kids what the escape consists of, who its **protagonists** are and give them the **map** to start playing.

## Let the fun begin!

# SKYE

She is a cocker spaniel, the first female character of the puppies until the arrival of Everest and she is 5 years old.

She loves to fly and owns a helicopter; so her duties focus on flying overhead, and her vehicle also has a hook that allows her to grab things. She usually expresses her joy by doing somersaults.

She is afraid of eagles.  
Her best friend is Everest.

Skye quotes:  
This pup's got a fly!

# ROCKY

He has one of the most educational roles in the series, and he tries to teach children to take care of the Planet. He is a very nice and pleasant mongrel dog.

His intelligence stands out when making any invention because he always reuses old things. In addition, he reuses and transforms them into useful things.

His motto is the 3 R's Recycle, Rescue, Reuse.

Frases de Rocky:

"Green means go!"

"Don't lose it, Reuse it!"
